

TURF BOOKING WEBSITE

Web Development Proposal

Prepared for: Jayesh Sahu | Date: June 2026

This proposal outlines the scope, features, cost, and timeline for developing a full-featured Turf Booking Website using the MERN Stack (MongoDB, Express, React, Node.js).

1. Project Overview

We will build a professional, mobile-friendly turf booking platform that allows customers to view available slots, book sessions, and make online payments , while giving the business owner full control through an admin dashboard.

Tech Stack

Layer	Technology
Frontend	React.js (with Tailwind CSS)
Backend	Node.js + Express.js
Database	MongoDB (via MongoDB Atlas)
Authentication	JWT (JSON Web Tokens)
Payments	Razorpay
Image Storage	Cloudinary
Deployment	Vercel (Frontend) + VPS (Backend)

2. Website Features

Customer-Facing Features

- Browse turf details — photos, amenities, pricing, and location

- View real-time available slots by date
- Book a slot and pay securely online (Razorpay)
- User registration and login
- Booking history and cancellation option
- Email confirmation after booking
- Fully mobile responsive design

Admin Dashboard Features

- Secure admin login
- Overview dashboard with total bookings and revenue stats
- Manage turf details (photos, description, amenities)
- Set operating hours and slot durations
- View, confirm, or cancel any booking
- Block slots for maintenance or holidays

3. Cost Breakdown

One-Time Development Fee

Item	Cost (INR)
Website Design & Development	₹10,000 – ₹15000
Payment Gateway Integration (Razorpay)	Included
Admin Dashboard	Included
Testing & Bug Fixes	Included
Initial Deployment & Setup	Included

Monthly Running Costs

Service	Provider	Cost (INR/month)
Frontend Hosting	Vercel	Free
Backend Server (VPS)	Hostinger / DigitalOcean	₹450 – ₹700 / month
Database	MongoDB Atlas	Free (up to 512MB)
Image Storage	Cloudinary	Free (up to 25GB)
Email Service	Brevo / Gmail SMTP	Free

Domain & SSL

Item	Cost
.com Domain Registration	₹850 – ₹1,300 / year
SSL Certificate (HTTPS)	Free (Let's Encrypt)

Payment Gateway Charges (Per Transaction)

Gateway	Fee
Razorpay (Recommended for India)	2% per transaction

Total Monthly Cost to Client: ~₹700 – ₹850/month | Total Annual Cost: ~₹9,000 – ₹11,000/year (excluding development fee)

4. Project Timeline

Phase	Task	Duration
Phase 1	Project Setup, Auth & Database Design	6 – 7 days
Phase 2	Turf Listings & Slot Management	6 – 7 days
Phase 3	Booking Flow & Payment Integration	6 – 7 days
Phase 4	Admin Dashboard	6 – 7 days
Phase 5	Testing, Fixes & Deployment	6 – 7 days

Estimated Total Timeline: 4 - 6 weeks from project kick-off

6. What's Included

- Full source code ownership transferred to client upon final payment
- 1 month free bug-fix support after launch
- Deployment to live server and domain setup
- Basic SEO setup (meta tags, sitemap)
- Mobile-responsive design
- Secure HTTPS (SSL) enabled

7. Next Steps

To get started, the following is required:

- Client confirms proposal and signs off
- 50% advance payment to begin development
- Client provides: business name, logo, turf photos, pricing info, operating hours
- Domain purchased (or transferred if already owned)
- Remaining 50% payment upon project delivery

Ready to get started? Reply to confirm and we will kick off the project within 24 hours.

Thank you for considering this proposal.
